

TRRA DONATION TO BUSHFIRE APPEAL

At its first meeting of the year, Tomaree Ratepayers and Residents Association members recognised the plight of families and communities who had suffered appalling losses of life, and the destruction of entire towns caused by the fires raging across the Victorian countryside.

The Chairman, Bob Young, said that whilst the television and radio coverage gave the rest of Australia some idea of the devastation, it was hard to grasp the enormity of the loss to so many families, and the ruin of so many towns.

'The best way for this community to show its support is to provide as much financial assistance as possible, as many families had nothing or very little left,' he said.

The Association members made a substantial collection on the night that was deposited with the Westpac Bank which is taking donations for the Victorian Bushfire Relief Appeal.

'As a small community we understand how important it is to help each other out in times of crisis. TRRA urges the Tomaree community to dig deep to assist these families in their time of need and to help get them back on their feet'.
