

GENERAL ISSUES NIGHT AT TRAA

In a break from its pattern of addressing one large issue, the Tomaree Ratepayers & Residents Association will report on achievements to date and provide members with an opportunity to raise general issues at its next monthly meeting.

In particular it will report on an important meeting held this month by selected Committee members with the Mayor, General Manager, Manager of Sustainable Planning and three local Councillors at the Council Chambers, Raymond Terrace. At this were discussed the role of the Association in representing the local community and a number of current issues.

It will also foreshadow an important Public meeting it is convening in June on the proposed extensive RSL Club redevelopment. At this the Club Director will detail the development plans and the community will have the opportunity to ask questions, to form opinions and voice concerns.

The monthly meeting will be held at the Nelson Bay Bowling Club on Monday 26 May at 7.30 p.m. All are welcome.
