TRAFFIC AND PARKING STRATEGY FOR NELSON BAY DISCUSSION FOR JULY 11 MEETING

The main theme for TRRA's July General meeting will be a "Traffic and Parking Strategy for Nelson Bay"

A local resident, Robert Caldwell, a consulting Traffic Engineer and planner will make a presentation on this matter drawing on his extensive experience in the field.

Issues to be discussed will include:

- Through Traffic Bypass operations
- Traffic calming on Government Road and Victoria Parade
- Public Parking Needs
- Circulation through the CBD
- Parking Requirements for future Residential and Commercial developments

This theme is very timely as Port Stephens Council is about to launch a traffic study for Nelson Bay. TRRA intends to feed the results of this meeting into this study by way of a submission.

The meeting which is open to the public commences at 7.30 pm on Monday July 11 in the Crows Nest room at Nelson Bay Bowling Club.

Geoff Washington
TRRA Chairman
