

*Working Together
for Sustainable Living
In a Treasured Environment*

TRRA actively represents the community on a range of issues that affect the Tomaree Peninsula including planning and development, economic development, cultural infrastructure and resources, the built and natural environment, tourism and other grass roots issues.

TRRA networks with local Organizations on issues of shared interest, and works to ensure that our Council consults with the community and maintains transparent and accountable processes

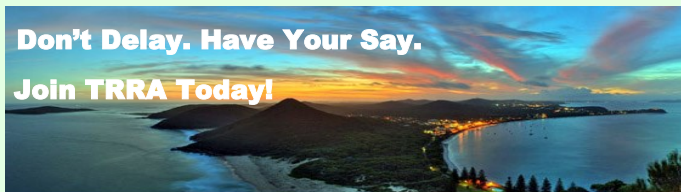

Join us to have a voice in how our community grows and develops to ensure that we all benefit and that our unique, natural environment is protected and enjoyed for future generations.

TRRA has successfully campaigned on limiting high rise development, protecting bushland, better design, public domain improvements and traffic and parking issues. But there have also been losses and the community needs to be constantly vigilant to ensure we preserve the character and environment of the peninsular in the face of threats from narrow section-al and private interests.

Tomaree Peninsula includes areas from Fingal Bay, Shoal bay, Nelson Bay, Salamander and Soldiers Point to Anna Bay and Boat Harbor

Don't Delay. Have Your Say.
